DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

- (1). **Claims 1-5** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, it recites: Preferably urea. The use of phrase "Preferably" to link a broad range of values with a narrow range of values renders the claim to be indefinite. It is not clear which range controls the actual meter and bounds of the claimed subject matter.

Claim 1 recites the limitation "one washer" in instant claim 1. There is insufficient antecedent basis for this limitation in the claim.

Claims 2-5 are rejected because of their dependence.

Allowable Subject Matter

- (2). Claims 1-5 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The following is an examiner's statement of reasons for allowance:

Prior art Hollowell (US 3344585) does not teach cooling gas in 2nd washer (bottom washer) as well demister in the bottom washer.

Prior art Blackwell et al (US 7258848B1), Douwes (US 4652678) do not teach the fine washer area delimited by mist collector on the top and by a liquid-impermeable partition bottom at the bottom and sprayed onto at least one mist collector in the scrubber.

Prior arts Kaupas et al (US 3985523), Ognibeni et al (EP 514902A1) do not teach the 2nd washer.

Prior art Diemer et al (US 4559210) does not teach demister and the additional water for demist, fine washer section delimited by demist on the top and a liquid-impermeable partition plate at the bottom.
